2. Of letters or writing: Having the large rounded forms (not joined to each other) characteristic of early Greek and Latin manuscripts; also (in looser use), of large size, capital.

The term is also applied to letters having the form of the uncial, irrespective of size. When used in its strict sense, *new lat.* is distinguished from *capital*, which denotes the more original, unrounded forms of the letters.

Jerome's *unciales litteræ* (Prol. Job) is commonly explained as meaning 'letters of an inch long'; his use of the word is accompanied by the phrase *ut vulgo aiunt*, and the literal sense was perhaps not seriously intended. The emendations *inflibiles* 'initial' and *uncinales* 'hooked, bent', have been suggested.

Under- (vndər), *prefix*[1], representing OE. *under-*, = OS. *undar-*, OHG. *untar-*, ON. *undir-*, etc. (see Under *prep.*). In OE. about eighty words with this prefix are recorded, but only fifteen or sixteen of these are of frequent occurrence. Of the total number about fifty are verbs, and twenty-five nouns, the adjectives being few and rare. In OHG. there are also many examples both of verbs and nouns, in ON. of nouns only ; on the other hand there are few recorded examples in OS., and none in Gothic.

2. In OE. (as in OHG.) a considerable number of the compounds with *under-* were clearly suggested by Latin forms with *sub-* (*suc-*, etc.) and occur only as renderings of these, e.g. *underberan*, supportare, sustinere ; *underbēged*, subjectus ; *underbrādan*, *-bregdan*, substernere ; *undercerrende*, subvertens ; *undercuman*, subvenire. The frequency of such forms no doubt contributed greatly to establish the vogue of the prefix in ordinary use. The practice of rendering L. *sub-* by *under-* is extensively followed in the earlier Wycliffite version of the Bible, and gives rise to a large number of unique or unusual forms, as *underburn*, *-cry*, *-drench*, *-follow*, *-grow*, *-heave*, *-hile*, *-join*, *-laugh*, *-lead*, *-minister*, *-mow*, etc., which are illustrated below, together with some others occurring in the anonymous translation of the Pauline Epistles. Similar examples are occasionally found in other ME. translated texts, as *undervorn*, *-slake* (q. v.), after L. *subornare*, *summitigare*.

3. In combination both with verbs and with nouns various senses of the prefix were already developed in OE., and further variations have arisen in the later language, the starting-point for new developments being usually the Elizabethan period. In most of its senses *under-* can be freely employed to form new compounds, the meaning of which is obvious except when they are used in some special or technical connexion. In some of these general types *under-* is correlative to Over-, and not infrequently the actual compound in *under-* is entirely due to the previous use of one in *over-*.

In the following sections a number of the more casual formations are given by way of illustration ; those which have a more permanent character, or which for some reason require special treatment, are entered in their alphabetical places as main words. The uses which are most capable of giving rise to new formations, of which complete enumeration is impossible, are 4 a, 5, 6, 9, 10 a, b. Altogether the senses of the prefix may be classed under four heads :—

I. Denoting local position.

4. With verbs. The following variations are found in OE. and in the later language : a. Denoting action (or continuance of a state) carried on under or beneath something, as OE. *underberan*

to support from below, *underdelfan* to dig beneath, *underetan* to eat away, to sap, *underiernan* to run beneath, etc., ME. *undercut, -dig, -grow, -hole, -mine, -pitch, -shore, -strew*, and the later *underbind, -brace, -build, -gird, -hew*, etc. b. Denoting the action of moving so as to be or to get under something, as OE. *underflōwan* to flow under, *underhrīnan* to descend beneath, *underscēotan* to pass under; ME. *undercreep*; also with causative force, as OE. *underbregdan* to spread under, *understīgan* to put under, *understingan*, to thrust under, ME. *underput, -set*. Additions to this group are not frequent in the later language, but occur in *undercrawl, -drive, -run, -work*, and with slight variation of sense in *underpeep, -peer*. c. Rarely, the sense of 'from below' is found, as in *underpeep, -shine*.

In the dictionaries of Florio (1611) and Hexham (1647), *under-* is used in the above senses to form a number of compounds which are merely suggested by Italian forms in *sog-, sop-, sott(o)-* and Dutch in *onder-*, as *underhand, -knit, -left, -mark, -note, -roof* (Florio), *underfume, -gripe, -lift, -press, -smoke* (Hexham). In addition to verbs, the following miscellaneous examples include instances of the ppl. adj. and agent-noun.

b. Denoting that the thing specified is either placed below something else, or is the lower in position of two similar things; the two cases are only clearly distinguishable when it is usual for the things to go in pairs. The use is very rare in OE. and ME., but begins to extend in the 16th century and is common from the 17th. When pairs of things are contrasted, *under-* becomes equivalent to *lower* (as *over-* to *upper*), and readily assumes an adjectival function: see Under a. 1. b.

The meaning is however as frequently expressed by Sub- 5 a and 6.

Examples of *under-* prefixed to a term of general import are rare, but *underman* occurs in the 14th cent., *underbeing, underfellow* in the 16th, *underscrutin* in the 17th.

An early instance of this is *underhelp* (1579); others, such as *underaccident, -action, -cause, -ministry*, etc., occur in the 17th cent. In later use the tendency is to employ either *sub-* (see Sub- 5 b, c, d) or an adjective, but A. Tucker *Light Nat.* (1768) has *under-aim, -plan, -scheme, -society, -species, -stage*.

7. With verbs, denoting reduction to (or acceptance of) an inferior or subordinate standing. Chiefly OE., as *underbēgan* to subject, *underbūgan* to submit, *underþēodan* to subject, subjugate; and ME., as *undercast, -put, -thew*. See also *undershining, -sphere, -study, -sweat, -thrown*.

Under- is rarely employed in the sense of Sub- 9 (*b*): Florio (1611) has *under-appoint* rendering It. *sottodelegare*.

III. In figurative senses.

8. With verbs. a. In OE., various secondary meanings of *under-* are represented by such verbs as *under(bē)ginnan* to begin or attempt, *underfōn* to receive, *undergītan, -niman, -standan* to understand, *undersēcan* to investigate. Several of these survive in ME., as *underfo, undergete, -nim, -stand, undersecche*; and a few more are added, as *underfind, -grope, -take*. In later examples the sense is usually that of (secret) investigation, as *underfeel, -look, -search, -watch*, or of unobserved action, as *underhear*. In addition to the verbs some agent-nouns occur, as *under-dealer, -plotter, -puller*.

Florio (1611) renders It. *sottosopere, -rivere* by *underknow, -smile*.

b. From the end of the 16th cent. *under-* is used with verbs in the sense of 'below (= at a lower rate than) another person', as in *underbid, -buy, -sell, -spend, -work*.

c. Occasionally the sense is 'to a point or degree below what is normal or customary', as in *undercooled, -hew*.

d. Very rarely, subordinate action is implied, as in *underlet* = sublet.

9. With nouns, denoting actions, etc., which lie or are kept beneath the surface or in the background. An early instance is *undercraft* (*c* 1400); others occur from the 17th cent., as *underdealing, -thought*. Modern instances are chiefly of an individual character.

IV. Denoting insufficiency or defect.

10. a. With verbs. From the latter part of the 16th cent., by contrast with Over- 27, *under-* is prefixed to verbs to imply that the action falls below the usual or proper standard, and thus acquires the sense of 'at too low a rate', 'too low', 'too little', 'insufficiently'. Early instances are *underprize, -value*, others of slightly later date are *underbuy, -charge, -rate, -reckon, -sell*, etc. Subsequently the use becomes extremely common, especially in the sense of 'insufficiently, not enough', and occurs frequently with pa. pples. and ppl. adjs. Examples of vbl. sbs. (cf. b) are also included in the following illustrations.

b. With nouns, in the sense of 'insufficient, deficient, defective', contrasted with Over- 29. Examples occur in the 17th cent. in *underprice, -rate, -value, -wages*, and are not uncommon in later use, though less frequent than the verbal forms.

c. With adjectives *under-* is rarely employed as the opposite of Over- 28, except when directly suggested by the latter, e.g. *under-scrupulous* as the converse of *over-scrupulous*; *underhonest* (Shaks.) in contrast to *overproud*; *under-ripe*, etc.

11. In words formed with *under-* the stress is variable. Normally it falls on the stem in verbs (including participles in predicative use) and on the prefix in nouns, adjectives, and attributive participles, with a secondary stress on prefix or stem respectively, whenever form or sense makes a double stressing natural or necessary. Even in verbs, however, the prefix naturally takes either the main or an equal stress whenever it becomes emphatic through contrast either with the simple verb or with a compound in Over-.

12. Compounds in which the two parts are not felt to be distinct are written as one word without a hyphen. In other formations the use of the hyphen is variable, and depends to a great extent on the form or the frequency of the word. Complete separation of the prefix, common in older usage, is now restricted to instances in which *under* may be taken as an adjective. Examples of these have been included under the compounds, as no clear distinction can be drawn between the two.

Under- (ˈʌndəɹ), *prefix*[2], originating in the coalescence of the preposition Under with a following noun, the compound being then usually employed as an adj. or adv., as Underfoot, -ground, -hand, -stairs, -water. In attributive use these compounds have the stress on the prefix.

Purely adjectival formations, as *under-celestial* (Florio), *-natural* (1641), *-proficient* (1703), are rare. An unusual type occurs in Undergraduate, *Shatherita* ii, Everything turned upon whether the postmaster..would be in his *undergovernment manner. 1887 Meredith *Ballads & P.* 149 Some *undermountain narrative he tells. 1894 *Daily News* 3 Sept. 6/1 The work of real difficulty is..the *under-river portion of the tunnel. 1897 Mary Kingsley *W. In all the Germanic languages the meaning shows a parallel development to that traceable in English; where the word survives it usually denotes either midday or afternoon or a meal taken at these times.

With some variation of form, *undern* is common in OE. and ME. down to the 15th cent.; in later use it is restricted to dialects of the north-midland and northern counties and the south-west of Scotland. In addition to the forms given above, some northern dialects exhibit (from the 17th c.) variants with a prefixed *a-*, as *aoundrons*, *aaundren*, *aoundar*, etc. (*Eng. Dial. Dict.* s.v. *Dinnerteam*). The OE. *ǽfter undern* also survived in dialect use, and appears as *earnder*, *eender*, etc. (see YRNDER), while OE. *ofer undern* appears in the 15th c. as *orendron*, *ornedrone*, in the 17th as *onndorn*, *arndorn*, and later as *arnuder*, *arndern*, etc. (*Eng. Dial. Dict.* s.v. *Undern*). Both of these have equivalents in mod. N. Fris. (dialect of Sylt), viz. *ırönner*, *ırner* forenoon and *aurönner*, *aurner* afternoon.]
